

“When we review online learning materials, we bring professional recognition to the site authors and thus encourage them to further development of learning materials. I enjoy the collegiality, dedication, and professionalism of my fellow math editors.” (Danny Davis, Professor and Math Peer Reviewer, Shorter College)

Be Recognized as a MERLOT Peer Reviewer

Our Peer Reviewers are part of an international community of discipline experts who are recognized for their knowledge and proficiency in their fields. You can join this elite group of reviewers and be part of the MERLOT Peer Review Process.

We'll Help You Become a Peer Reviewer

We're by your side as you begin the Peer Review process, starting with your enrollment in GRAPE (Getting Reviewers Accustomed to the Process of Evaluation) Camp. Once you complete GRAPE Camp, you will be mentored by an Associate Editor as you conduct a Peer Review on a learning material in your discipline. Serving as a Peer Reviewer enables you to become more familiar with the types of learning material available; in fact, many Peer Reviewers say it helps them be better teachers themselves. You'll also be recognized with a letter of appreciation at the end of the year.
