**Evaluation and Observations:** After reviewing the learning material, please indicate your agreement with the following statements by placing an "x" in the applicable column where 5=excellent or strongly agree and 1=poor or strongly disagree.

1. Quality of Content – The Learning Material	Strongly	Neither	Strongly	N/A
presents valid/accurate concepts, models, and skills				
presents educationally significant concepts, models and sklils for teaching with				

technology						
complete in scope and ready for use						
where appropriate, valid/accurate references, bibliographies, and other						
supporting materials are provided						
	5		3		1	0
Enter a numerical value that summarizes your attitudes above.						
Strengths (Review the ratings above and indicate the outstanding features of the c	qualit	y of	fthe	Res	sour	ce)
Concerns (What are some problems in the Resource as far as quality?)						
2. Potential Effectiveness as a Teaching Tool/This Learning Material asking						
you to judge, based on your expertise as a teacher or faculty development						
professional, if the resource is likely to improve support for instruction in higher						
education by increasing their knowledge, productivity, and professional						
effectiveness in teaching.						
gives a clear articulation of the purpose/goals of the resource						
the user will be able to effectively achieve these goals						
compared to other methods of teaching the same concept, models, or skills,						
this resource is just as effective or better						
the content level is appropriate for higher education instructors						
the resource as appeal – visual, auditory						
it prompts the user to go furtherit promotes creative use beyond the site						
it intrigues the user intellectually						
it is engaging; it pulls the user in ; it is a sticky site						
it is interactive; it does so effectively						
if the resource is interactive, it provides feedback about the user's response						
it provides effective introductions, overviews and summaries where applicable						
it allows for connections to community; it supports community interactions						
it appeals/accommodates different styles of learning						
it prompts users to adapt/experiment with ideas in their own disciplines						
there is a vehicle/mechanism for contacting the author of the site for						
consultation/questions						
Overall, learning material is a very effective teaching tool						
	5		3		1	0

Strengths (Review the ratings above and indicate the outstanding features of the pathe Resource)  Concerns (What are some problems in the Resource?)	oossib	ile (	effec	tive	eness	s of
3. Ease of Use – This Resource						
presents the information clearly						
information is arranged in an orderly fashion						
if the resource claims to be comprehensive, the information is well organized						
and logically sequenced						
content level is appropriate for the expertise level of the intended audience						
presents information in ways that are familiar for the intended audience						
is clearly designed with no distracting design elements (e.g. color, sound,						
animation, too much on a page)						
the terms and any new jargon are defined						

	1					
is readily available						
If this resource is software or a tool:						
there are easily understood instructions						
the labels, buttons, menus, test, and general layout of the computer interface						
are consistent and visually distinct.						
the user does not get trapped in the software/tool						
the software/tool provides feedback about the system status						
the software/tool provides feedback about the incorrect user						
actions/responses						
there are not any major bugs (e.g. links that do not work)						
Overall, the usability of this learning material is very high
